

# Pro Forma Submission

Please only use this form if you are submitting multiple Buy to Let applications within a Portfolio submission.

Please read through the guidance and ensure all options are selected. Any missing information or errors may result in a delay of the underwriting of the application.

Ensure that all supporting submission information is attached to the 1st case submitted, we will now refer to this case as the Master case. The Mortgage Lender will then move all supporting documents from the Master case to the subsequent submitted cases on your behalf as long as this Pro Forma has been uploaded. Please note that standard checks may apply and further documents may be requested.
